

**DIMKIT-HCL-BT**  **Bluetooth®**  
**CASAMBI**

DIMKITHCLBT is a smart sensor whose functions include Pir Detection, Daylight and the automatic control of the colour temperature. The free app can be used to set the latitude, date and time and to launch one of the nine preset profiles (colour temperature and brightness variation) depending on the location; the user can also customise their own profile. The master sensor controls 40 DALI devices and the slave sensors (code SENSCLBTS). Manual Bluetooth wall controls (code HCLBTDD) can also be integrated.
